LEGAL 500 EMEA: LE CABINET DERRIENNIC ASSOCIÉS TOUJOURS INCONTOURNABLE AU CLASSEMENT 2022

Après Chambers et Décideurs 2022 où il se distingue comme un des meilleurs cabinets français en NTIC et données personnelles mais également dans la catégorie Blockchain, le cabinet Derriennic est heureux d'annoncer qu'il reste un acteur incontournable du droit des NTIC dans le classement LEGAL 500 EMEA.

Il conserve sa place dans la **catégorie leading law firms (Tier 1)** du classement **Industry Focus, IT and the Internet**.

« IT boutique Derriennic Associés offers a 'full niche service' to leading software producers, IT services providers and IT manufacturers. Particularly noted for its strength in litigation, the firm has been representing Thales Communication & Security in an ongoing dispute before the Administrative Court of Bordeaux relating to the implementation of a new ticketing system for public transport in the urban community of Bordeaux. Francois-Pierre Lani is head of the department and has experience as a jurist and as in-house counsel for major companies such as AXA. Alexandre Fievue stands out for his expertise in new technologies. Pierre-Yves Margnoux negotiates complex IT contracts. Georges Jensemle is particularly well known as a mediator. Bruno Ducoulombier has over thirty-five years of experience in advice and litigation under his belt.

Par ailleurs, **François-Pierre LANI** conserve sa place dans le classement individuel **Leading Individuals** ainsi que **Alexandre FIEVEE** dans le classement individuel **Next Generation Partners**.

Le cabinet conserve également sa place parmi les **leading law firms (Tier 1)** du classement **Data Privacy and Data Protection**.

« Acting for both public and private players on GDPR compliance, Derriennic Associés has formed a dedicated GDPR team that includes a former in-house lawyer of the French Data Protection Authority. The team has conducted a number of in-depth compliance audits and assists with crisis management in the event of cyberattacks and data breaches. Pierre-Yves Margnoux worked for the legal unit of a major European digital services company and has built up extensive experience in the field of new technologies. Francois-Pierre Lani is also known for his expertise in new technologies. On contentious data matters, Georges Jensemle is then named to note. Bruno Ducoulombier supports companies in their digital transformation projects. Alexandre Fievée's background in telematics gives him an in-depth understanding of the technology used to monitor information.
